

Press release Calendar Week 46/I

Up on the “Iceberg“ Rameder’s new convenient ski carriers

Winter sport enthusiasts are ready to go, the first snow has fallen and people are looking forward to the skiing season. Many skier and snowboarder have to carry their equipment to the winter sport regions. To make the assembly easy and transport safe, **Rameder** has quite a number of different ski carriers available.

With the Iceberg, up to four pairs of skis or two snowboards can be carried. The 1.4kg ski carrier made of aluminium can also be assembled in a jiffy, thanks to the T-shaped sliding blocks. The surface is 37cm wide and can carry up to 6kg. The wide rubber section keeps the cargo in place and is gentle on its material. And the integrated locks protect the skis and snowboards too. **Rameder** sells the Iceberg for €50.99. For cars with no aluminium rails, box section assembly sets can be bought for €14.99, also at www.rameder.eu.

Rameder, Europe’s leading provider of towbars and automotive accessories, always has the right product to transport winter sports equipment available. If you have any questions about the many products and how to mount them, ask our staff during our office hours. Also a permanent stock of 169,000 items, keeps **Rameder’s** delivery times short.
